Design of the Test

At 11+ Ready: Test Zone, we ensure that every mock test closely reflects the format, structure, and difficulty level of the most widely used 11+ exams for grammar school entry. Our tests are carefully designed to match the style of these assessments, incorporating the same question types, timing requirements and content coverage.

Subject Description

All tests follow a multiple-choice format, ensuring that pupils practise in the same style as their real exam. To maintain high quality and accuracy, our tests are proofread and edited by experienced 11+ tutors who are well-versed in the 11+ curriculum and assessment standards.

The following pages illustrate the content coverage of each subject test.

Further Information

For Pupils:

- Ensure pupils have scrap paper, an exercise book, or a whiteboard with a suitable writing tool for solving problems.
- No measuring tools are required for these tests.
- No calculator is permitted for these tests.

Skipping Questions:

- Pupils may skip questions by clicking an arrow to move forward.
- Before submission, the system will display any unanswered questions and provide the option to revisit them.

Submitting the Test:

- At the end, pupils must click 'Submit' to complete the test.

Resuming Within the Same Day:

- If pupils run out of time within your specified time limit (e.g. lunchtime) and need to continue later, they can press the 'Save' button and resume the test within a week. When they return, they can log back in and select 'Resume' to continue from where they left off.

After Closing the Programme:

- If the programme is closed, pupils can relaunch the test and log in as usual. They will be taken back to the question they saved before exiting.

For Educators:

Secure Environment:

- It is advisable to monitor pupils during the test, just like any paper-based tests, to ensure the test is taken in an honest manner.

Set a Time Limit

- Click 'advanced configuration' under **Manage Activities** when sending out the test.

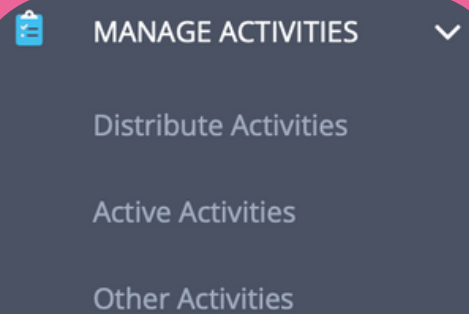

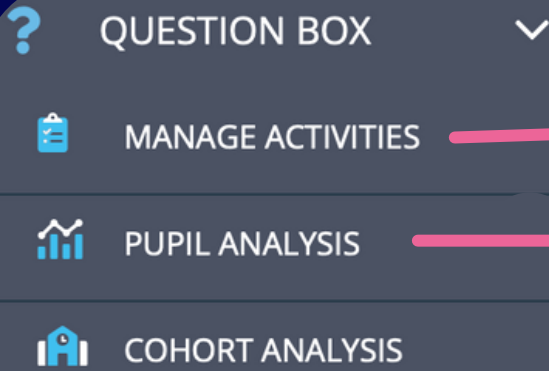

Save the Link

- Save the link to your devices' Home screen:
